

Zainab Raza Malik

BS Artificial Intelligence (2nd Year) | NUST, SEECS, Main Campus

+92-309-8145039 | zainabraz1960@gmail.com | Islamabad, Pakistan | [LinkedIn](#) | [GitHub](#)

Objective

Second-year BS AI student at NUST with strong foundations in machine learning, Python, and full-stack web development using the MERN stack, TypeScript, Next.js, and Tailwind CSS. Seeking internship opportunities to apply AI and web development skills in real-world projects and contribute to innovative solutions. Enthusiastic about learning, problem-solving, and developing practical applications.

Education

- **BS Artificial Intelligence** | NUST, SEECS (2024 – Present) | CGPA: 3.94
- **Intermediate (FSc)** | Bakhtawar Cadet College (2022 – 2024) | Grade: A
- **Matriculation (SSC)** | Bakhtawar Cadet College (2020 – 2022) | Grade: A

Technical Skills

- **Programming Languages:** Python, JavaScript, TypeScript
- **Web Development:** MERN Stack (MongoDB, Express, React, Node.js), Next.js, Tailwind CSS
- **AI & Data:** Machine Learning, Data Analysis, NumPy, Pandas, Scikit-learn
- **Tools & Platforms:** Git, GitHub, VS Code, Jupyter Notebook, Figma

Soft Skills

- Problem Solving & Critical Thinking
- Team Collaboration & Communication
- Time Management & Adaptability
- Quick Learner & Enthusiasm for Innovation

Projects

Healix – Hospital Management System

Full-stack MERN application for remote patient-doctor consultations with real-time chat, appointment scheduling, medical records management, and secure payment processing.

Tech: MERN Stack, TypeScript, Tailwind CSS

EpiVirus – Pandemic Simulation Platform

Network-based disease spread simulator built with Python and React to model outbreaks and test intervention strategies. Includes demographic modeling and visualization modules.

Tech: FastAPI (backend), React (frontend)

Gesture Web

Interactive web application using webcam gesture recognition via MediaPipe to control website UI elements with 8 gestures.

Tech: React, MERN, MediaPipe

NUST Hostel Management System (NHMS)

BS Artificial Intelligence (2nd Year) | NUST, SEecs, Main Campus

+92-309-8145039 | zainabraz1960@gmail.com | Islamabad, Pakistan | [LinkedIn](#) | [GitHub](#)

Digitized hostel operations with role-driven dashboards for admins, managers, staff, and hostelites. Features task automation, resource requests, and optimized workflows.

Tech: MERN Stack, TypeScript

Early Care Monitoring System (Ongoing)

AI-based human activity and fall detection system.

- Uses **Mobiact, UHR, and gait recognition datasets**
- Classifies activities and detects falls using a meta-classifier
- Includes gait stability analysis for health monitoring

Tech: React Native, FastApi, Python, ML, Python

AI Fashion Stylist (Ongoing)

Intelligent fashion recommendation system.

- Users input clothing preferences via text
- Scrapes top Pakistani fashion brands and suggests best matches
- Recommends matching shoes and accessories to complete outfits
- Reduces manual browsing and improves shopping efficiency

Tech: MERN Stack, TypeScript

Internships / Work Experience

AI Intern | Murrabi

Duration: 16 June 2025- 16 August 2025

- Developed **Jolly Phoneme Classification** model using **Whisper + BiLSTM**.
- Achieved **0.97 F1 score** and **96% test accuracy**.
- Gained hands-on experience in **audio processing, model training, and evaluation**.

AI Intern | NESCOM (Current)

- Working on **Turbo Engine Remaining Useful Life (RUL) prediction**
- Applying machine learning techniques for predictive maintenance
- Handling time-series data and model optimization

Certifications

- **IBM JavaScript Backend Developer** – IBM
- **Machine Learning Specialization** – DeepLearning.AI, Stanford University
- **Microsoft AI & ML Engineering** – Microsoft
- **Meta Front-End Developer** – Meta
- **Ultimate TypeScript Course 2024 – Learn, Build & Excel** – Packt
- **WebSockets Protocols Explained** – Packt
- **Introduction to Next.js** –
